

COOKIE POLICY – ACCIAIERIE VENETE

Use of cookies

This website makes use of cookies in order to make the services as efficient and easy to use as possible. Therefore, when users visit the site, a small quantity of data is downloaded onto their computer in the form of small text files known as "cookies" that are stored in the user's browser directory. There are different types of cookies; the main purpose of a cookie is to help the website function more efficiently and to enable certain functions.

Cookies are used to improve the user's overall browsing experience. In particular, the cookies on this website:

- help users navigate between web pages more efficiently.
- measure how the user makes use of the services in order to enhance their experience of browsing and the services.

The different types of cookies that can be used in the website, along with a description of their purpose, are described below.

Technical cookies

Technical cookies are necessary for the correct functioning of some areas of the website and include both persistent and session cookies. Without these cookies the website, or some sections of it, may not function properly. Therefore, they are always used, irrespective of the user's preference. Technical cookies are always sent from our domain.

Analytical cookies

Analytical cookies are used to collect information on website usage. The Data Controller uses this information for statistical analysis purposes, to improve the website and simplify its use, as well as to ensure that it is functioning correctly. Analytical cookies collect anonymous information on users' activities on the website, how they came to the website and which pages they visit. Analytical cookies are sent from the website itself or from third-party domains.

Third-party cookies

Third-party cookies are used to collect information on the use of the website by visitors, the keywords used to arrive at the website and the source traffic origin. The Data Controller can use

this information to compile reports and improve the website. Cookies collect information anonymously. Third-party cookies are sent from the website itself or from third-party domains.

Cookies to integrate products and functions of third-party software

This type of cookies integrates features developed by third parties within the website (for example, forms for comments). These cookies can be sent from the domains of partner websites or websites that offer their functionality through the pages of the website. The Data Controller is not obliged to ask for the user's permission for technical cookies, since these are strictly necessary for providing the service.

For all other types of cookies, consent may be expressed by the user in compliance with current regulations, using specific configurations of the browser, computer programs or devices which are easily and clearly usable by the user. The Data Controller reminds users that they can change their cookie preferences at any time. It is also possible to disable the use of cookies in the browser settings at any time; however, doing so could prevent the user from using certain areas of the website.

Third-party websites

This website contains links to other websites that have their own privacy and cookies policies. These policies may be different to those adopted by the Data Controller; the Data Controller is therefore not responsible for third-party websites.
